

# IQ FOB-S QUICK INSTALL GUIDE

## Convenience on a keychain

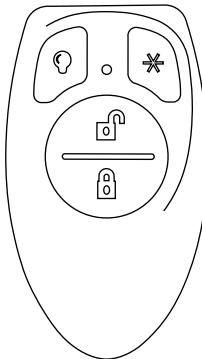

The IQ Fob is one of the easiest ways to use your system. Using our proprietary S-Line encryption technology, encrypts signals sent to the IQ Panel while still providing backwards compatibility for legacy 319.5 systems. Most people find themselves remembering they haven't armed their system as they get into the car, or are too busy carrying things to arm their system from the IQ Panel.

The IQ Fob allows you to activate your system within 100' of the IQ Panel, and has the hidden feature of being able to activate an intrusion or "police" panic by pressing "Lock" and "Unlock" together for 3 seconds.

## FEATURES

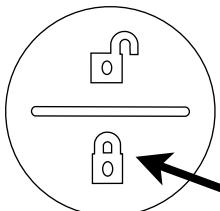

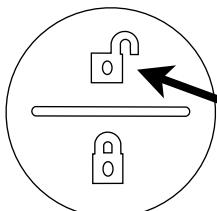

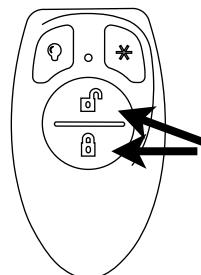

- Encrypted S-Line sensor technology
- Lock button can arm in stay or away mode
- Unlock disarms system
- Up to 100' range
- Panic function

This is a quick guide for experienced installers only. Refer to <http://dealers.qolsys.com> (login required)

**STEP  
1**LEARN  
INTO  
PANELPlace your panel in  
“autolearn” modePress and hold arm and disarm  
buttons to “tamper” the device

ADD
