Date:	December 21, 2023
Region:	USA and Canada
Product:	QS5519-840
Brand:	Qolsys

IQ HEAT 135/200
QS5519-840

Scope

Johnson Controls is pleased to announce the launch of the IQ Heat 135/200 detector. The IQ Heat 135/200 wireless heat detector uses electronic processing to detect heat conditions plus a wireless transmitter (319.5MHz) in one unit. The micro-processor trips the transmitter when the temperature at the detector location reaches a fixed temperature of 135°F (57°C) or 200°F (93°C), depending on selection, or senses a rate of rise at 12°F to 15oF (6.7 to 8.3oC) per minute.
