

PowerG

Range. Encryption. Simplicity.

Unmatched Range

Wireless range measured in miles, not feet, ensures steady connections up to 1.24 miles* from the panel.

Elite Reliability

Build durable systems in difficult or complex settings with long-lasting performance and up to 8 years of battery life*.

Innovative Technology

Design cutting-edge systems with advanced features like dual encryption, backwards compatibility and strength penetration.

Extensive Portfolio

Embrace every install with a vast selection of security, automation and life safety devices designed to fit any situation.

Faster Installation

Finish jobs sooner with QR codes, remote management and simplified setup through IQ Installer.

Seamless Ecosystem

Centralized device management streamlines deployment and system monitoring.

*Varies depending on environment
